Closing Season is ALMOST here!

Have you scheduled your pool closing YET?

Call now to schedule your appointment
301-948-8111 or
service@watercrafters.com

When should I close my pool?

Sadly, closing your pool tends to mark the end of summer. Our swimming weather usually lasts through September and often into October with really no risk of freezing until after Thanksgiving. So, theoretically, there is no reason to hurry and close your pool, however, almost all area pool owners will have their pools closed by the end of November. Closing early (when kids go back to school) or late (after Thanksgiving) is truly a personal preference.

Remember these two BIG factors when determining your pool closing:

How many trees do I have?

Which type of cover do I use?

Trees

If you have a lot of trees, once the leaves start falling, you will need to clean out your skimmer baskets and your automatic cleaner 2-3 times a day.

Covers

Mesh cover: It is important to "close late and open early". This minimizes algae growth that occurs when sunlight passes through the mesh. Waiting until the water temperature drops

below 60 degrees before shutting off the pool is recommended. Some pool owners with mesh covers put the cover on as soon as the leaves start falling, but leave the pool operating below.

Solid cover: Many pool owners with solid covers wait until most of the leaves have fallen before they close. They find it's easier to keep the pool clean rather than scooping leaves off the top of the cover.

Regardless of the cover type, the shorter the period of dormancy, the fewer problems you will have during off-season.

Are you finding that you want to extend your swim season?

A new pool heater like the highly efficient Pentair UltraTemp Heat Pump OR the fast heating Jandy JXI Gas Heater will keep your pool at comfortable swimming temperatures during fall. Watercrafters Specialists can provide many options for you to get the most enjoyment from your pool. Call us to learn how to extend your poolside season!

Plan A ► \$425

Complete Closing with Cover

- Lower water level & backwash or hose filter
- Winterize equipment & underground lines and add antifreeze as needed
- Disassemble ladders, rails, etc. & store equipment per customer
- Site evaluation & winterization guarantee
- Provide & add winter chemical kit
- Put on winter cover

Plan B ► \$365

Complete Closing No Cover

- Lower water level & backwash or hose filter
 - Winterize equipment & underground lines and add antifreeze as needed
 - Disassemble ladders, rails, etc. & store equipment per customer
 - Site evaluation & winterization guarantee
 - Provide & add winter chemical kit
- (Customer puts on cover)

Pool Complete and Antifreeze

Pool Complete Closing
Part of the Tru-Blue Promise program. Use at closing for a hassle-free opening. Enzymes reduce waterline ring & protects against surface staining. Treats up to 20,000 gals.

Antifreeze
Protect equipment and underground lines from freezing. Safe for swimming pool use.

\$9/gal

\$38

Winter Kit

Winter Floater

A little extra protection for white plaster pools. Slow-dissolving chlorine stick floaters help prevent algae growth over the winter. Treats up to 20,000 gals.

NOW \$32

BioGuard Arctic Blue

These chlorine sticks differ from traditional chlorine because the SilkGuard Technology actually softens the water by attaching to hard water components and metal surfaces, which protects your pool surface and equipment from scale, corrosion and staining, all while killing bacteria.

12K NOW \$31⁹⁵

24K NOW \$62⁹⁹

Arctic Blue Winter Kits
Patented technologies keeps your pool water clear!

Booster Kit

Booster Kit
Adding BioGuard Arctic Blue Shock throughout the course of the Winter to make Spring start-up quicker and easier. We make it simple with our pre-assembled Booster Kits. Treats up to 24,000 gals.

NOW \$32

Pumps, Rakes, Blasters

\$179¹⁰
Through September 30, 2018

\$579

after instant \$50 trade in
Valid until 9-4-2018

Polaris 3900 Sport

The sleek 3900 offers the most technologically advanced features available in a pool cleaner. It delivers unmatched pool vacuum power incomparable convenience, and legendary performance.

\$699

after mail in rebate
Valid until 9-4-2018

Rebates valid until September 4, 2018.

We offer tune up and repair services on your Polaris.

Also available Genuine Polaris Parts and replacement bags.

Extend your warranty from 1 year to 2 years when you purchase from Watercrafters.

FREE IN-STORE SETUP: Bring in your old cleaner heads and hoses and we will cut your new hoses to the same lengths.

Pool tools

Routine pool maintenance is a fact of life if you want your pool to be clean and inviting. While our pool tools may not eliminate the work, they help cut pool chores down to size and leave you more time to enjoy the pool.

\$36

Leaf Vac

Works with your garden hose to push debris into an extra large mesh bag. Device can also be used while pool pump is off.

\$29

Leaf Rake

A leaf rake is the perfect tool for removing leaves, twigs and insects from all depths of your pool.

Wondering how to winterize your pool?

Closing time will be here soon.

Here are some professional tips to get your pool ready when it is time.

All Pools

- ☐ Have your water tested at our Retail Showroom 3-10 days before closing and balance per our Pool Care Specialist recommendations.
- ☐ Remove chlorine sticks or turn off the feeder so sanitizer levels can drop before draining the pool.
- ☐ Clean your filter with Kleen-It. Our staff can deep clean your Cartridge & DE Filter over the winter. Call for details.
- ☐ Add a dose of Pool Closing Complete to reduce waterline rings and prevent staining and scaling.
- ☐ If your pool was plastered within the last 3 years, add a dose of BioGuard Scale Inhibitor.
- ☐ Make sure your Optimizer Plus level is in range to reduce winter algae growth.
- ☐ Thoroughly clean your pool before closing.
- ☐ Lower your water to its winter level
 - 8-12" below the skimmer for mesh covered pools
 - 4-6" below the skimmer for solid covered pool
- ☐ Add your winter chemicals after you have lowered the water level and brush well!
- ☐ Blow lines and add antifreeze as needed.
- ☐ Set up your cover pump so it is ready. Place pump on top of your solid cover to pump rain water off the cover or on a step under your mesh cover to keep the pool water off the tile line is recommended.

Additional Steps for Mineral Springs or Salt Chlorinated Pools

- ☐ Don't top off your Beginnings or salt too much for closing.
- ☐ Clean your cell with SaltScapes Cell Cleaner.
- ☐ Treat for phosphates with Pool Tonic.
- ☐ Add Scale Inhibitor and Pool Closing Complete to help prevent staining and scaling. Make sure to turn off the cell and leave it off when adding Scale Inhibitor.

The Pool Care Specialists at Watercrafters are here to help. If we are closing your pool, we will take care of these steps for you. Need our help? Call to schedule your closing.

Off-Season Services

Winter Check-Up with 2 visits \$180 - Solid and Mesh

Winter Care Plus: Monthly visits \$90 each

Includes water/leaf removal from solid cover and winter shock treatments for mesh covered pools. Plus, lower water level as needed, blow off deck and site evaluation.
